enjoy life!*

Lewens
MARKISEN

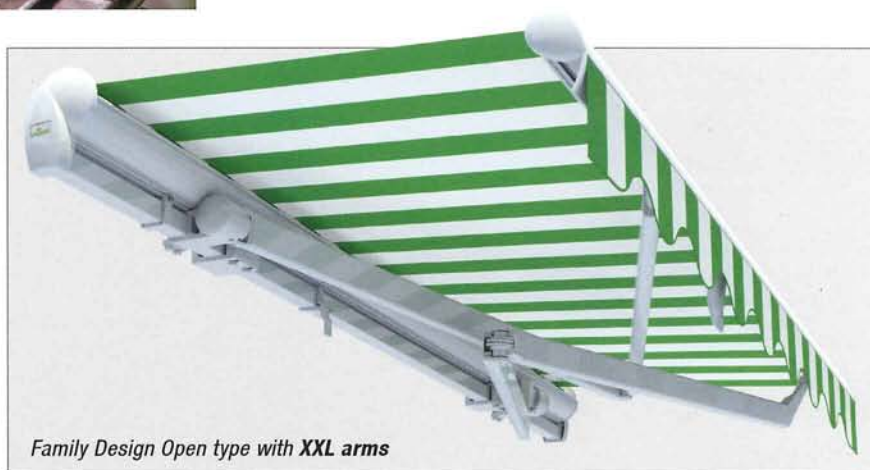

Eye-catching beauty.

Our FAMILY DESIGN adds a subtle hint of fashion and its designer front profile fits perfectly into the garden image. Superior Lewens quality, ease of operation and attractive accessory features. The choice is yours: Open, Rain Cover or Encased type.

Options

XXL Arms

If only a small width is available for the awning and a large drop is nevertheless required, the Family Design with its XXL arms that overlap in two planes is the ideal solution. Can be supplied for: OPEN type, RAIN COVER type and ENCASED type.

Family Design Open type with XXL arms

For even greater comfort you can equip your FAMILY DESIGN with:

- Support legs
- Lighting strip
- Patio heater
- Sun and wind sensor
- Radio remote control

Support leg option

Lighting strip option

The clear-cut design of the front profile gives the Family Design its characteristic modern form.

OPEN TYPE

On the basic FAMILY DESIGN type, the awning fabric roller is exposed or "open". Round end caps at the sides and the fabric cover shell on the front of the fabric roller give the awning a harmonious appearance.

SYSTEM

The FAMILY DESIGN is a sturdy, long-lasting quality awning:

- ▶ Front profile with double hollow chamber and integral rain gutter
- ▶ 40 x 40 x 2 mm console tube, galvanized and powder-coated
- ▶ Rust-resistant pins, Teflon-coated bearings, high-grade steel screws

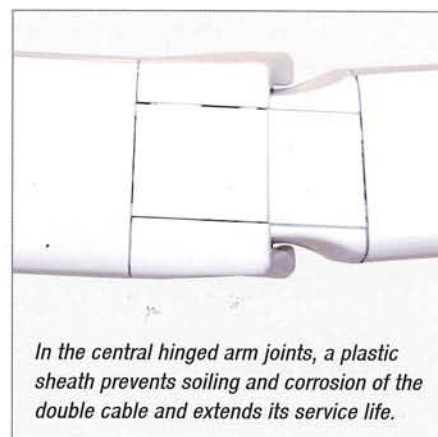

The **front profile bracket** of the FAMILY DESIGN connects the arms securely to the front profile and permits easy adjustment of the angle.

Family Design – Rain Cover type

RAIN COVER TYPE

The **protective cover** on the FAMILY DESIGN RAIN COVER type protects the awning when retracted against dust, rain and other effects of the weather.

In the central hinged arm joints, a plastic sheath prevents soiling and corrosion of the double cable and extends its service life.

SYSTEM
